

QUESTIONS TO ASK YOUR INSURANCE AGENT REGARDING INSURANCE COVERAGE FOR **YOUR PROPERTY** IN STORAGE:

Q: Does your homeowners' or business insurance policy cover property stored at a location that is not your home or business?

A: Most homeowners' or business insurance policies do not automatically provide this coverage and a separate endorsement must be issued, subject to insurance company approval.

- **The Orange Door Storage Insurance Program automatically provides this coverage as soon as you complete the form and pay the monthly premium.**

Q: Is coverage provided only for a limited time limit?

A: Most homeowners' or business insurance policies only provide short-term (usually 30 days) coverage. Any extension would need to be approved by the insurance company.

- **The Orange Door Storage Insurance Program provides coverage that remains in effect for as long as you have your storage unit and pay the monthly premium.**

Q: Is there an additional premium charged to cover property stored at another location?

A: Most homeowners' or business insurance policies will charge an additional premium to add an endorsement to provide coverage for property in storage. In many circumstances, the estimated costs could be between \$1.25 to \$1.75 per \$100 of values.

- **The Orange Door Storage Insurance Program has an affordable premium that you can pay monthly as part of your storage bill or online.**

Q: What is the deductible?

A: Contents in storage are subject to your homeowners' or business insurance deductible. Most homeowners' or business insurance policies have a minimum deductible of \$500 and yours could be higher.

- **The Orange Door Storage Insurance Program has a \$100 deductible.**

Q: If there is a loss, will your insurance premium increase?

A: Your claims-free discount will be lost and your premium could increase. If you report multiple claims under your insurance policy during a five-year period, you run the risk of your coverage being canceled.

- **The Orange Door Storage Insurance Program will not raise your premium or cancel you if you have a loss.**

Q: Does your homeowners' policy provide coverage for business property?

A: Most homeowners' policies will not cover this without a specific endorsement to your policy. The business usually has to fit the model of "home-based business" and must be approved by the insurance company.

- **The Orange Door Storage Insurance Program provides coverage for business property.**

Q: Does your homeowners' policy contain special exclusions for property in storage?

A: Most homeowners' policies only provide coverage for theft to property in storage.

- **The Orange Door Storage Insurance Program provides coverage for a number of named perils including water, flood, fire, smoke, hail, lightning, windstorm, vandalism and burglary.**

Q: Does your homeowners' or business insurance policy provide coverage for vermin or flood?

A: Homeowners' or business insurance policies, as a rule, will not provide vermin or flood coverage for Personal Property.

- **The Orange Door Storage Insurance Program provides coverage for flood as well as \$250 coverage for vermin.**
